### IN THE CITY COURT

William Gill Sent to Jail—Eriel Rondeau Committed on Two Counts—Two Cases Postponed.

William Gill pleaded guilty to the charge of intoxication in the local police court Friday morning. He was ordered off the street Thursday afternoon but persisted in making a nuisance of himself and was finally locked up. He was sentenced to thirty days in jail.

Eriel Rondeau was charged with drunkenness and indecent exposure. He pleaded guilty to intoxication but could not remember having done anything else that was wrong. Mike Mazzola and two children, Mildred and Frank Olin, aged 10 and 11 years, saw Rondeau in the alley next to Mazzola's store on Main street about 6 o'clock and testified to that effect. Rondeau was before the court about six months ago, charged with intoxication and resistance to an officer, and having the police trouble before he was locked up. Rondeau said he was married and had two children. He was given thirty days in jail on each count.

Other cases to be postponed were those of Arthur Hurcutt, 13, and Clyde Dube, 12, charged with injury to private property belonging to the Gardes Florissant Union in the center street armory, March 11. Their cases were postponed until this morning. The case of Myer Bitten and his wife Minnie of Columbia charged with assault and breach of peace was postponed until next Monday. The last case is the charge of a battery extending between the Mandell and Bitten families for some time past. The complaints were made by both parties.

### Candidates Given Try-out.

Candidates for Windham High school's baseball team were given a tryout Thursday evening at Windham field, about thirty appearing. The April meeting of the Windham Girls' club was held at their rooms on Valley street Thursday evening. There was an attendance of over one hundred and twenty-five, including many ladies of the city, who are interested in the club. Miss Grace E. Ottenheimer, president, was in charge of the meeting, which opened with a soprano solo by Miss Monica McKee. The report of the treasurer, Miss Minnie Cracken, was given, showing the financial affairs of the club to be in good shape. Miss Alice Eaton, secretary, then gave her report, for which there were reports from committees appointed at previous meetings. Misses Eva and Alice St. Martin sang a duet. The matter of increasing the membership was taken up and it was decided to have a membership campaign. A special committee was appointed for that purpose with Miss Julia Shea as chairman.

The following committees were chosen for the year: Grace Mortuary, Mrs. House, Mrs. Grace Mortuary, Mrs.

## HOW CHILDREN GROW

Children grow by nourishment—not overloaded stomachs or rich foods but qualities that are really converted into life-sustaining blood, too often their digestive powers cannot procure these qualities from ordinary foods which results in weakness, dullness and sickness.

If your children are under-size, underweight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicinal nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brains. Scott's is growing-food for children. Refuse alcoholic substitutes.

FRENCH DEPUTIES WELL INFORMED OF WAR PROGRESS

Members of British Parliament are Given Only Meagre Information.

London, April 7.—Members of Parliament, who through frequent visits to France have learned how well informed the members of the French Chambers are kept in regard to the progress of the war and the plans and actions of the Government are complaining bitterly of the small part they are able to play through being kept in ignorance of what is transpiring. They have been urged therefore that some system of secret sessions or committees, such as they have in France, shall be introduced here and that the members be told of what is transpiring behind the scenes. At present a member of parliament knows just as little as the general public, and like the public, has to depend upon rumor and gossip for his information, outside of the official statements issued by the Press Bureau and the speeches of Cabinet ministers. T. P. O'Connor, who, like the majority of the Nationalists, has consistently supported the Government since

the outbreak of war, led the agitation for a change in a letter to the press and he has been supported by the Liberal Daily Chronicle, which has suggested that Parliamentary Committees be appointed to work with each of the Cabinet ministers and that in this way the members would receive the information which is now denied them. It is also argued that a House of Commons which was in full confidence of the Government would be less prone to criticize the every act of the Government.
